

Technical Teaching Assistant – Paid Intern Opportunity – UK wide

QA are looking for a team of individuals who have a desire to help develop the next generation of cyber and technical minds. Working up and down the UK on five day events throughout the Easter and summer holidays, these events are designed excite and inspire students aged 13 - 17 into the world of Cyber Security and Technology. Throughout the week students will work on progressive labs in combination with talks from leading experts in the Cyber field.

You will:

- Have a passion and broad range of technical skills
- Travel to multiple locations up and down the UK
- Have the right to work in the UK
- Willing to undergo an enhanced Disclosure and Barring check (DBS)

You must:

- Have great communication skills
- Be approachable and continually engaging
- Be confident in speaking to large groups
- Be able to demonstrate working to your own initiative

Desirable but not necessary:

- HTML Skills
- Windows Desktop and server knowledge
- Networking and Network infrastructure
- IoT

If you are passionate about Cyber and Technology and the above sounds like you, then please apply today...
