We empower them to push boundaries and thrive in the workplace.</p> <p>Why we do learning For over 30 years, we've worked in technology - where the impact of great learning is changing the world. A bold statement, but hear us out. We are right at the centre of a technological revolution. Devices are not just connecting people, cities and countries - they are connecting to each other, collecting data and using it to learn and make themselves better. Soon we will have cars that can drive themselves, fridges that make sure we never run out of milk and computers that can learn from their own mistakes.</p> <p>Driving this revolution? People. And this is where we come in. People advancing their knowledge in technology - to enrich society - build a new culture - better how we live our lives, and how we work together. People are learning to use technology to drive phenomenal change. This is our passion - powering their potential.</p> <p>Higher Education Our UK higher education provision involves working in partnership with universities, colleges and education specialists in the UK to recruit, market and deliver a range of programmes from foundation level, to undergraduate and postgraduate</p>

This is over and above the charitable activities that we encourage through our annual QA fundraising drives - you can get involved with this as much or as little as you like. We see it as a great way to foster team building too.</p> <p>We all need to take time out to recharge our batteries from time to time and enjoy some down time, so we provide a fairly generous 25 days' holiday per annum (rising to 28 days after 5 years) - with the option to buy more if you wish.</p> <p>It's important, too, to plan for the future and ensure we are able to maintain the lifestyle we have worked so hard to achieve, once we retire from the hurly burly and slow down to enjoy our later</p>
